TECHNICAL SKILLS

Languages: Python, Java, C++, JavaScript, TypeScript

Frontend: React.js, Next.js, Tailwind CSS, Recoil, Context API, React Hook Form, Framer Motion,

Backend: Node.js, Express.js, REST APIs, WebSockets, Socket.IO , WebRtc

Database: MongoDB , PostgreSQL

Tools & Platforms: Git, GitHub, VS Code, Postman, Prisma ORM, MongoDB Atlas, Vercel, Render

Concepts: Object-Oriented Programming (OOP), Data Structures and Algorithm (DSA), API Design, Authentication, Real-Time Systems

Soft Skills : Problem Solving, Team Collaboration, Communication, Time Management

PROJECTS

SyncDev | [\[Live Link\]](#) | [\[GitHub\]](#)

May 2026

- Developed a real-time video conferencing web application enabling users to create and join rooms using unique room IDs.
- Implemented audio/video calling, screen sharing, and multi-user communication using WebRTC and Socket.io.
- Built a scalable frontend using Next.js and TypeScript with a backend powered by Node.js and Express.js.
- Integrated real-time media streaming and peer communication for seamless virtual collaboration.
- Tech Stack: Next.js, TypeScript, Node.js, Express.js, WebRTC, MediaSoup , ws

Second Brain (Recally) | [\[Live Link\]](#)

2026

- Developed a full-stack Second Brain application to save, organize, and manage YouTube and X (Twitter) content links in a structured dashboard.
- Implemented user authentication and secure session handling using JWT-based auth system.
- Built a dynamic content filtering system to categorize saved items by platform (YouTube, Twitter, All).
- Designed a responsive and modern UI using React.js and Tailwind CSS with smooth UX interactions.
- Created RESTful APIs using Node.js and Express.js for content CRUD operations with MongoDB database.
- Enabled real-time content addition and deletion with instant UI updates for better user experience.
- Tech Stack:** React.js, TypeScript, Node.js, Express.js, MongoDB, Tailwind CSS, JWT, REST APIs

Muzic | [\[Live Link\]](#)

Aug 2025

- Built a full-stack music streaming and voting platform.
- Implemented a video queue system with voting logic for community-driven music playback.
- Developed the frontend using Next.js and TypeScript for type safety and scalability.
- Used Prisma ORM with PostgreSQL to design and manage relational data.
- Tech Stack: Next.js, TypeScript, PostgreSQL, Prisma ORM, Tailwind CSS
